As part of the unified budget process, we are asking you to pledge the amount you are able to give to support ALL the work of our church – with just a few exceptions. Instead of setting up many different funds with different purposes, we are trusting in our leadership to be good stewards of our monies and spend them wisely. In the chart below you will see a list of many of the different funds we used to have. As we transition to this unified budget we are using what is left in these special funds for their original purposes but no longer soliciting for those funds.

As always, your designated giving for "Mission of the Month", denominational offerings and the Deacon Emergency Fund will go to those funds and be paid out only to those ministries.

What should I include in my Unified Budget pledge?
